## SCHOOL HIGHLIGHTS

Fairbanks is a small school located in the Strawberry Manor neighborhood. We strive to provide an educational program that addresses the needs of the "whole child." We believe that social-emotional learning is as important as academic learning in order to create global citizens.

## EXCELLENCE IN EDUCATION

Last year, Fairbanks was one of eight elementary schools in Twin Rivers to receive a Gold Ribbon School Award.

## NOTABLE ACCOMPLISHMENTS

Our school has an art integration focus. This year we are working on integrating theater into the core curriculum. In addition to our art integration focus, our K - 2 students receive instruction in visual art and our 3 - 6 grade students receive instruction in music. Our 4th grade students annually perform with the Sacramento Philharmonic Orchestra through the Link-Up program, a partnership with Carnegie Hall.

We also have award winning basketball, flag football and cheerleading teams through our after-school program.

Fairbanks school has also received a Gold Level HealthierUS School Challenge award. The award is based on students' healthy eating, nutrition and levels of physical activity.

## ENRICHMENT PROGRAMS

Our after-school programs include After School Education and Safety (ASES), which has a large sports component; Gifted and Talented Education (GATE), which has a solar power focus; and Math, Engineering, and Science Achievement (MESA), which has a science and engineering focus. Our MESA students win awards year after year at the annual MESA competition.
