## SCHOOL HIGHLIGHTS

Garden Valley School inspires students and their families to learn together by providing a collaborative and welcoming community for a successful future. Students receive a comprehensive education in Common Core Standards. Technology is an integral part of instructional delivery and students are able to use lap tops for research and writing projects as well as educational programs. Our families are encouraged to become involved in weekly Parent University classes that support their desire to work with their children to be successful in school. They are also encouraged to volunteer and be a daily part of our school community. Together we will achieve!

## EXCELLENCE IN EDUCATION

Garden Valley provides learning opportunities to enhance student learning, encourage leadership, and success in academics. Students have many opportunities to work on writing and math projects using a variety of media and technology. We provide high quality first instruction and meaningful support to our students who require additional learning experiences. Teachers meet weekly to view data from instruction, adjust instruction, and design meaningful interventions when needed for our students. Progress monitoring is an integral part of developing learning opportunities in which all students learn daily.

## NOTABLE ACCOMPLISHMENTS

Garden Valley received a silver award for their excellence in working toward healthy lifestyles.

Students at Garden Valley participate in:

- Spelling and Speech contests
- Visual and Performing Arts

## ENRICHMENT PROGRAMS

At Garden Valley, students can apply for an after-school program that offers homework assistance and enrichment programs.

Students can also try out for sports teams that include:

- Soccer
- Kickball
- Basketball
- Football
- Cheerleading
