SCHOOL HIGHLIGHTS

- At Woodlake, the academic success of your student is our greatest purpose. We provide a safe, rigorous and engaging learning environment, along with the life skills necessary to prepare your student for college and a career.
- Our goal is to develop positive self-esteem with our Character Counts! program to encourage the focus on positive behavior choices. Students are taught specific character traits, and then are recognized and rewarded for demonstrating these traits.
- We offer many programs outside of the classroom to enhance our students' development, including extended day tutoring, clubs, and a sports league.
- We understand the importance of a strong school and family partnership. We have a Parent Incentive program that recognizes and encourages our parents to get involved at Woodlake by participating and volunteering. The principal regularly communicates with our parents through Coffee and Conversation on the first Wednesday of every month. Parents are encouraged to attend English Language Advisory Committee (ELAC) and School Site Council (SSC) meetings as well.
